Choosing The Right Test

Urine Cups
Best all-around option for pre-employment and random testing. Self-contained and easy to read.

Oral Fluid
Observed collection that's hard to cheat. Best for post-accident and reasonable suspicion.

Dip Cards & Strips
Most economical for high volume, or to add one substance to an existing program.

Status, Validity And Cutoffs

CLIA Waived

FDA-cleared and CLIA-waived for workplace testing. Can be performed at your site under a CLIA Certificate of Waiver.

Forensic Use Only

For employment, court, corrections and treatment programs. Not for clinical diagnosis. Confirm non-negative results at a lab.

FDA 510(k) Cleared

Collection supplies cleared by the FDA for specimen collection.

Validity (SG/pH/CR)

Built-in specimen validity checks for specific gravity, pH and creatinine to flag diluted or adulterated samples.

COC300

Drug code with its cutoff in ng/mL. Results at or above the cutoff read as non-negative.

FEN20

Highlighted codes are expanded or emerging substances, such as fentanyl, xylazine, kratom and synthetic cannabinoids.

Drug Code Key

CODE	SUBSTANCE	CODE	SUBSTANCE	CODE	SUBSTANCE
6-MAM	Heroin metabolite (6-MAM)	**GHB**	GHB	**MTD**	Methadone
